Reports from the country state that there is still quite a little sprinkling of cotton to pick; one farmer told the reporter today that he had three bales yet to pick. Nearly everybody has some. This is something very unusual for cotton to be in the fields after Christmas, especially when the

prediction was made at the beginning of the picking season that it would all be out by the last of November. The top crop has helped out wonderfully and given all the farmers some extra money they were not expecting. One dollar per hundred is being paid for picking.

Knox turned his representative Down Bluntly and Coldly.

Special to the Eagle. Washington, Dec. 28.—Secretary of State Knox has refused to recognize Estrada as minister from Nicaragua and representative of Estrada, the revolutionary leader.

Castrillo called at the state department yesterday and was warmly received and greeted by citizens from his country, but his credentials from Estrada were turned down cold, Knox fearing complications.

It is said no minister will be recognized until the report is confirmed that Madriz will abdicate, and this is deemed unlikely.
